4.2: AUTOMATIC & MANUAL DETECTION

Smoke Detectors

Optical smoke detectors are ideal at detecting visually smoky fires which are likely to be slow, smouldering fires.

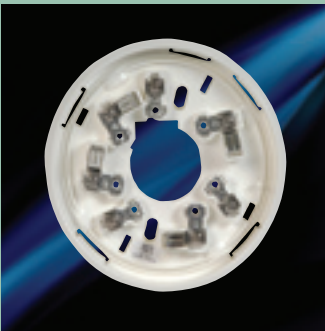

ABS casing with red LED fire indicator.

Optical Detector

Special feature The use of the diode base allows monitoring of a removed detector to comply with BS 5839.

N.B. Maximum of 20 per zone.

TECHNICAL SPECIFICATION

Type	Optical
Nominal Voltage	9 - 28V dc
Quiescent Current	60µA
Ingress Protection	IP30
Approx Weight	0.11 Kg
Operating Temperature	-10°C to +50°C
Relevant Standards	EN 54-7
Approvals	LPCB approved

ORDER CODES

Optical	17840-01
Common Base	17800-02
Common Base with Diode	17801-02
Base less Diode (surface cabling)	17800-01
Base with Diode (surface cabling)	17801-01
Remote LED module	17899-01
Remote Relay module	17899-44
